INSTALLATION INSTRUCTIONS

Soapy Water Solution:
Use a spray bottle and mix a few drops of liquid detergent soap with water.

**VERY IMPORTANT
KEEP WET!**

STEP 1. Apply generous amount of soap/water to the front of the graphic.

STEP 2. Keep both sides wet as you spray the back of the graphic with water.

STEP 3. Keep applying water as you take the liner completely off.

STEP 4. Clean glass thoroughly and wet glass completely over application area.

STEP 5. Apply to wet glass. (squeegee provided) Spray with additional soapy water.

STEP 6. Keep spraying the graphic. Slide graphic around until it is where you want it.

STEP 7. Squeegee out all remaining water from the center out, keep spraying with water while doing so to keep it lubricated.

STEP 8. Dry off with towel or paper towel.
